### Processing information

Side to be printed is the outer side of the roll  
Best results between 15° - 25°C and 30-70 %RH (especially higher humidity will increase drying time, low humidity may cause curl)  
Correct maintenance of cartridges or printheads will result in optimal print quality. Please check your printer documentation for the recommended maintenance activities.

---

### Outdoor suitability

This material is suitable for outdoor use but performance is not as that of a dedicated outdoor material.

---

### Storage conditions

Temperature 10° - 30° C  
Relative Humidity 20-80 %  
Repack opened rolls when not in use  
Allow material to adapt to room conditions 24 hours before printing

---

### Health, safety & environment

No Material Safety Data Sheet required  
Waste can be handled as paper waste

---

### Health, safety & environment
